

Hi -

Can you forward this to the VADA Board members, with the following comments:

- Implementation of the amendments to the Horse Protection Act has been delayed until **April 2, 2025**

- USDF has been advised that **the requirements will NOT apply to educational activities** such as clinics
- **USEF will handle the reporting for all licensed competitions**
- Unless there is a change between now and April 2nd, competition managers/organizers will need to report all the schooling shows at least **30 days before the show** (nothing I have seen would prevent a chapter from reporting all of their shows at once)
- As far as I have been able to find out, there is currently no form to use for reporting

- Information on what to report and the email and snail mail address for reporting can be found at the following link

<https://www.aphis.usda.gov/sites/default/files/tech-note-hpa-event-records.pdf>

We will share future updates and guidance as we get them.

Thx-
Sheli
